**DOUGLAS  
AMONG  
TOP TEN**

Douglas Aircraft company today was notified that its Torrance facility of the El Segundo division has been named one of the 10 most significant manufacturing plants completed in the United States in 1954. The Torrance plant was chosen in a nationwide competition sponsored by Factory Management and Maintenance, a McGraw-Hill publication.

The award cites Douglas for transforming a series of abandoned shells into a modern processing and assembly plant.

Designed and engineered by Van Dyke & Barnes, Los Angeles, the plant employs 10,000 workers and is primarily engaged in production of the Navy's F4D Skyraiders and the famed AD Skyraiders. The F4D holds the three and the 100 kilometer world speed records.

Rev. John Bill, rector of St. Peter's Episcopal church, officiating.

Burial was held in Green Hills Memorial park.

Instead of flowers, the family requested that friends make donations to the American Heart association if they wished.
